

6 JULI - 10 JULI 2020

IT FUNDAMENTALS

Do you sit from time to time and feel outside for meetings when the talk falls on something technical?

Then this course is just for you. You get an in-depth review of IT concepts and knowledge of how the technique works.

In this course, we make you more relevant to your business and to the general job market.

We teach you IT at a level where you will never again feel outside for meetings if the talk should fall on something with technique.
